

REMARKS/ARGUMENTS

The Examiner has objected to the language "etc." and "substantially in a prescribed arrangement". Applicant has amended all of the claims in a way that Applicant believes overcomes the objection. Because the Examiner has maintained that the objectionable language rendered the claims indefinite, Applicant believes that the amendment should not be considered as having narrowed the scope of the claims in connection with any Festo analysis.

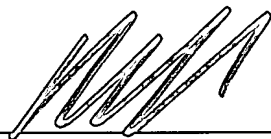

The Examiner has also rejected the claims under the judicially created doctrine of obviousness-type double patenting. Applicant has submitted herewith a terminal disclaimer that Applicant believes overcomes the double patenting rejection.

If the Examiner believes that contact with Applicant's attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call Applicant's attorney at the telephone number noted below.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0289.

Respectfully submitted,
